

PREM CHAURASIYA

premchaurasiya2006@gmail.com | [GitHub](#) | [LinkedIn](#)

Skills

Backend & AI/ML: Machine Learning, Google Gemini API, LangChain, Torchtune, CNN, Node.js, Express.js

Frontend & Mobile: React.js, Next.js, React Native, MERN Stack, HTML/CSS, JavaScript

Languages: C, Python, Java

Databases & Tools: MongoDB, Supabase, WebRTC, JWT, Clerk, Git/GitHub

Soft Skills: Leadership, Communication, Presentation, Team Management

Projects

Vyapari AI (Voice-Based Business Assistant) | [Code](#)

[Next.js, React.js, Supabase, Google Gemini API, LangChain]

- Developed a voice-powered AI assistant for MSMEs using Google Gemini API to automate invoicing and expense tracking.
- Built full-stack backend with Supabase, handling secure authentication, database operations, and PDF invoice storage.
- Created a responsive Next.js interface delivering real-time, cross-platform business management workflows.

AI Mock Interview Platform | [Code](#)

[React.js, Node.js, WebRTC, Gemini API, Clerk]

- Engineered an AI-driven interview system using Gemini API to generate dynamic questions and deliver instant feedback.
- Integrated real-time audio/video streaming via WebRTC and speech-to-text processing for an interactive interview experience.
- Implemented authentication and user session persistence using Clerk.

Alzheimer's Detection Using CNN | [Code](#)

[Python, CNN, Deep Learning, Image Processing, NLP]

- Built dual CNN architectures combining structural brain MRI scan classification with conversational text analysis.
- Trained models to detect structural markers from MRI scans and linguistic flags indicating cognitive decline.
- Combined multimodal evaluation streams to achieve improved diagnostic detection accuracy.

Product Management System |

[MongoDB, Express.js, React.js, Node.js, JWT]

- Developed a full-stack MERN application providing end-to-end CRUD operations for product inventory management.
- Implemented JWT-based authentication to manage protected routes and secure administrative operations.

Hackathons & Competitions

- **AMD AI Sprint (IIT Bombay):** Built targeted AI solutions fine-tuning open-source LLMs using Torchtune.
- **Coherence '25 (VCET):** Developed an automated AI Resume Screening and Ranking System in a 24-hour sprint.
- **L.R. Tiwari Agentic Hackathon:** Designed and developed agentic workflow prototypes under hackathon constraints.

Education

Vidyavardhini's College of Engineering and Technology (VCET)

B.E. in Computer Engineering – **CGPA: 8.3**

Mumbai, India

2023 – 2027

Holy Family Convent High School

Higher Secondary Certificate (HSC) – **Score: 79%**

Mumbai, India

2021 – 2023
